Bills Presented.

Among Bills presented to Parliament on Friday was one for incorporation of the Alberta Railway and Coal Company.

Libel Suit.

A wordy war has been going on between the Empire and Mail for some time respecting the alleged giving of secret information of Canadian affairs by Mail Editor Farrar to United States Senate Committee on its relations with Canada. Such information being that if the States would refuse reciprocity, that annexation would follow. The Mail has sued the Empire for libel.

The Dual Language.

OTTAWA, Jan. 22.—In the House to-day Dalton McCarthy introduced a bill to abolish French as an official language in the North West and made a strong speech in support claiming he was voicing the sentiment of the North West Assembly. The debate was adjourned till the second reading. It did not seem to create much enthusiasm in the House although Sir John remarked it was a very important question.

Half Breed Claims.

OTTAWA, Jan. 23.—Mr. Laurier asked for the resolutions of the North West Assembly respecting appropriation of monies voted by parliament for use of the Territories; also respecting half breed claims.

The North West Central.

WINNIPEG, Jan. 23.—It is reported again that the Northern Pacific has secured control of the North West Central and will head for the coast via Yellow-head pass.

No Truth in It.

Masonic Gathering.

TORONTO, Jan. 23.—Rev Canon O'Mara, grand master of the masons of Manitoba, addressed a large gathering in the masonic hall last night.

Ocean Mail Contract.

It is reported that the Allans have secured the mail contract on the promise of a speed of 17 knots an hour.

BATTLEFORD.

The mail due at noon Monday had not arrived on Tuesday night.

The weather is moderating. On Monday it was quite warm in the sun and nearly up to zero in the shade.

The lumber yard of Moore & Macdowell at this place has been purchased by the Prince Bros., who will carry it on in connection with their mill.

The many friends of Mr. T. E. Mahaffy will regret to learn that serious complications have arisen from his attack of influenza and that he is suffering very much and is still confined to his room.

D. L. Clink left by stage on Wednesday; his own business will take him to Ontario and as he has been provided with an emigration pass for this district he will likely make a more extended tour than he first intended and deliver lectures in the interests of immigration.

The epidemic influenza that struck this place a couple of weeks ago is dying out having taken hold of nearly everybody in the place. Medical men in the east were hoping for a dry cold spell which they thought would kill the germ and prevent the spread of the disease, experience in the west disproves their theory, the fortnight has been a delightfully calm with a bright sun all the day and seldom above 20 in daytime. These combinations give us a temperature dry and cold enough to suit anyone, and yet neither prevented the outbreak nor the spread of the plague. It is now for the first time taking hold of the Indians in the neighborhood.

BATOCHE.

Mr. E. M. Champagne, is lying seriously ill with influenza, complicated with inflammation of the lungs, and fears are entertained for his recovery.

Sergt. Gordon arrived on Wednesday, accompanied by Const. Conway, and is now in charge of the Police detachment relieving Sergt. Mountain, who left to-day for Prince Albert, where he will remain a few days before starting for the east at the beginning of next month.

Const. Lapointe arrived here on Wednesday, and left this morning for Hudson where he is going to meet Insp.-Supt. Cotton.

Dr. Stewart, accompanied by Indian Agent McKenzie of Duck Lake, went to "One Arrow's" reserve on Tuesday on a professional visit, there being a number of Indians laid up with sickness.

Mr. A. Reginer, formerly school teacher at the Lepine settlement has removed to St. Laurent, where he is engaged to teach at the Fourmond School on the east side of the river.

Last week Mr. Pinaud De La Croix, of St. Louis Delangevin, was struck with paralysis and is in a very precarious state. Arrangements are being made to take him to the St. Boniface hospital. The St. Louis people are losing in Mr. De La Croix a highly esteemed citizen as well as a very efficient school teacher.

Capt. Hoey was around here on Wednesday with two loads of oats, which he sold to the police department.

Quite a number of the Metis are already preparing to migrate, and the next place where they are likely to form a settlement is at Jack Fish Lake. Mr. Roger Goulet and a few others are now trying to sell their land and will leave in the spring.

CLARK'S CROSSING.

The annual meeting of the Central Saskatchewan Agricultural Society was held at Saskatoon on Tuesday evening last and was well attended. The treasurer's report showed the financial affairs of the society to be in a remarkably healthy condition. Over sixty of the members had paid their annual subscription in advance. Mr. Thor. Copeland was elected President with Henry Smith and Joseph Caswell vice presidents. Jas. Leslie, Sec.-Treasurer, re-elected. H. W. Gordon, auditor. A board of directors was also appointed.

At the Saskatoon telegraph office Synthe, who has inadvertently stepped on Wheeler's toes, "Oh, excuse me, but your feet were made to be walked on." (Wheeler indignantly) "I know that, but the privilege belongs to me."

PRINCE ALBERT DISTRICT

It is with pleasure we learn that
steps are being taken towards get-
ting up a descriptive pamphlet of
our district. Mr. Betts, in making
a move in this direction, has cer-
tainly shown a spirit of energy which
might with profit to the country be
followed by other members of the
assembly. He informs us that sev-
eral of our leading citizens have
volunteered to furnish descriptive
articles, and that a fair amount of
public spirit is being shown by nearly
all of our business and professional
men. This is as it should be. We
have a country which offers to the
incoming settlers natural advantages
which are entirely unknown in many
other parts of the Territory, and all
should try and make themselves in-
strumental in letting the outside
world know of these advantages. Let
every person interested in the future
of the Prince Albert district assist
Mr. Betts in the work he has under-
taken, and they will be surprised at
the large amount of good it is possi-
ble to accomplish with only a small
outlay of their time and money—
coupled with something like
united action. We will try to se-
cure a full description of the pam-
phlet for our next issue.

The treaty between the United
States Government and the Cœur
d'Alene Indians in Washington
State has been signed. This con-
veys to the government 222,000
acres of the best land on the reserva-
tion.

Judge Kelly of Pennsylvania, one
of the most prominent politicians in
the United States, and the oldest
member of the House of Represent-
atives, died at Washington on the 9th
inst. He had served continuously
for thirty years.

There is a bill before the United
States Senate providing for the emi-
gration of colored people from the
Southern States. It is interesting
to read what Senator Morgan, of
Alabama, said in the Senate a couple
of days ago on this subject. He said
he "had reached the conclusion that
there was a natural incongruity and
an irrepressible conflict which no-
thing could cure except their final
separation. The return of the ne-

gro race to Africa was the final and
only solution to the problem. It was
undeniable that the aversion between
the two races had greatly increased
since slavery was abolished, and it
would increase so long as a large por-
tion of the population was of the
African race. Experience would
not permit the statement that such
feeling of aversion existed only in
the south. It was not so intense in
the south as it was in the north. It
was not so strong between the negro
and his former master as it was be-
tween the negro and those who
never owned slaves. Separation of
the races was the only thing that
would extinguish race aversions." A
pretty condition of affairs, truly.

The annual returns of the British
army show a total regular force dur-
ing 1889 of 210,000 officers and
men. The cavalry of all kinds are
now reckoned at 19,000, the artillery
at 35,500, the engineers at 7,000,
the foot guards and infantry at 139,
500, the army service corps 3,400,
the medical staff corps at 2,400, the
ordnance store corps at 750, the
new corps of armorers at 300, the
corps of ordinary artificers at 70
and the remainder, to fill up the
210,000, are made up of the West
India Regiment, the Maltese Arti-
lery and other colonial corps. Of
the whole force nearly 108,000 are
quartered in the British Isles. Gen.
Roberts has under him in India
about 72,000 men, supplemented of
course by the splendidly trained na-
tive troops, the exact number of
which is not given in the present
returns. There are 28,000 in the
Irish garrisons, principally in the
Dublin district, and 4,000 in Scot-
land.

While stories of starvation and
misery come from Western States,
the condition of affairs within our
own boundaries is thus pictured
by a letter in the *Huron Examiner*:
"Manitoba, in spite of the present
drouth which we share in common
with all countries, west of the Mis-
sissippi and Red rivers, is a good
enough country for the right man.
We have a huge advantage over
Dakota in our lake country to the
north where many thousands of cat-
tle are now wintering almost without
any shelter and with as yet scarcely
a bite of hay consumed. One man
writes me from the bush that he has
not seen his horses for a month, and
adds, 'We get word from them now
and again, and that saves us looking
after them.' A warm bush and
plenty of rough feed is better than
rustling around a straw stack on the
open prairie."

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public under its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Croup, whooping, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and \$1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

GENERAL NEWS.

Fire broke out in a tenement house at Montreal lately, cutting off the escape of Mrs. Gorman and her two children, a boy of four and a girl of 16. A ladder was placed against a window to enable them to escape, and the mother assisted the boy on to the ladder, but he missed his hold at the second rung, slid half way down, and fell to the street. The girl had a similar experience, and this so crazed the mother that she threw herself headlong to the sidewalk, below a distance of forty feet, meeting with instant death. The children will recover.

The Department of Justice knows nothing of the rumor that S. L. Belden, of the Stony Mountain penitentiary, will exchange places with Herschmer, of the Mounted Police. A prominent official of the Department, however, says that if both gentlemen should agree to the exchange, he does not think the Department will raise any objections.

Inquiry into the death of Jane Speers, in Toronto on the 10th inst., confirms the impression first formed that the affair is one of the most foul and brutal murders that Toronto has ever seen. All idea of suicide is utterly precluded, investigation having shown that the skull of the deceased is fractured and one of her legs broken.

The baggage masters and brakemen of the Reading railroad have been ordered to remove their beards in order to procure uniformity in appearance.

Milton Blades a farmer in Oregon township, Ind., drank patent medicine for a slight trouble. He was seized with fits of insanity and became a maniac.

Mr. and Mrs. Geo. McCollum of Aurora, Ill., celebrated their sixtieth wedding anniversary the other day. Mr. McCollum settled in Aurora 1836 and his wife in 1838.

The Sydney Herald reports that during a severe storm at Louth, South Australia, chunks of ice as large as cricket balls fell in the streets. The court house, Royal Hotel, Telegraph Hotel and all buildings covered with iron roofs were perforated by the falling hailstones. A number of dogs and other animals about town were killed during the storm. Great damage was done to window glass and vegetation. For several days the mercury was above 100 degrees in the shade.

ABERDEEN, S. D., Jan. 10.—There is considerable comment and wonder at the continued rise of the water level in the Upper Jim valley. The river is much higher than for some time. Springs have burst forth in many places, and wells that have been dry for years are now filling up with water.

ANNUAL MEETING

Of Lorne Agricultural Society.

The annual meeting of the Lorne Agricultural Society was held in the Town Council chamber yesterday. About twenty members of the society were present. The minutes of a meeting of the directors held in the Queens Hotel at 11 a.m. were read and approved by those present.

The report of the Secretary-Treasurer was laid on the table, showing a balance to the credit of the society after liabilities outstanding were settled of \$46. The books were ordered to be handed to the auditors immediately to be audited and reported on at the next regular meeting of the society. The president called on the meeting to nominate officers for the ensuing year. Mr. Andrew Spence of St. Andrew's, 1st vice-president last year, was nominated and there being no opposition was declared elected unanimously. Messrs. R. J. Pritchard 2nd vice-president and Thos. Miller, the Ridge, were nominated for 1st vice, and upon a ballot being taken Mr. R. J. Pritchard was declared elected. Mr. Miller was unanimously elected 2nd vice and the following directors were elected: T. McKay, Jas. MacArthur, Wm. Plaxton, W. V. Macleise, T. O. Davis, Chas. Adams, R. Giles, Angus Cameron, John Stewart, S. J. Donaldson, D. C. McLellan, Capt. Craig, Peter Fraser, W. Glaister, Wm. McBeth, John F. Betts, Geo. Tait. Mr. Fred C. Baker and Jas. MacArthur were unanimously elected auditors for the ensuing year.

Mr. J. Howard having intimated to the directors that he would be unable to act another term as he would probably be leaving here next summer, Mr. Jos. M. Coombs was elected as Secretary-Treasurer.

A hearty vote of thanks was tendered to the retiring officers for their services during the past year.

A discussion over the question of ownership of the cups given by the Society for special exhibits arose, and it was decided, Mr. MacArthur having won the sheep cup twice, that it now become his property. This was hotly disputed by Mr. Stewart, who competed for and won the cup this year, he being left out altogether when the cup was handed over to Mr. MacArthur, Mr. Stewart although obtaining the award of judges did not see where the cup came in. It was finally settled by Mr. MacArthur donating the cup to the society and Mr. Stewart being allowed to score as having won it once.

The meeting instructed the directorate to appoint a committee and have the rules and regulations revised and amended, and to confer with those having won cups one or more times to arrange the conditions under which the various cups may be competed for hereafter.

The meeting then adjourned to meet at call of the chairman.

CANADA'S COMIC PAPER.

GRIP begins its thirty-fourth year with the New Year, which means to this brave little journal has celebrated its *seventeenth* birthday. When we say, "as we can without hesitation—that its ability both literary and artistic has been kept up to a uniformly high standard throughout this long period, and that today it is as bright as ever, we mention a fact exceedingly creditable, not only to the conductors of GRIP, but also the Canadian people, without whose appreciation and support this phenomenon of journalism would have been impossible. We call it a phenomenon adversely for so far as we are aware, there is not another country of Canada's age, certainly no other Colony, that can boast of a sixteen-year-old Comic Journal. GRIP has well deserved its success. It is not merely a clever and amusing paper, it is also a recognized power in Canadian public life, which we are glad to say, is always on the right side where questions of moral principle are concerned. It ought to be a pleasure to every Canadian to contribute to the success of such a journal, and the most practical way of doing this is by subscribing. The price is only Two Dollars per year, or if taken in connection with THE PRINCE ALBERT TIMES, the price of both will be \$3.25 cash.

Subscription may be sent direct to GRIP, Toronto, or to this office.
